HW1\_Part2

Notes from Instructor:

All,

I think there was a misunderstanding regarding HW1, part 2. Please submit the HW1 part2 again.

Please redo HW1\_Part2, and resubmit it again with your HW2. You can do this as a team now.

You need to follow the following steps:

- 1- Set up the facts application in your eclipse and run it and make sure it is working
- 2- Create a public GitHub account
- 3- Integrate GitHub with eclipse
- 4- Upload Project on GitHub using Eclipse (local and server repository)

How to Upload Project on GitHub using Eclipse:
