

SE 4381, Software Project Management

Team Assignment T07 – Presentations

Put together a presentation on your topic in PowerPoint. Font should be easily readable, 24 point is recommended.

Include at least one slide for each mandatory section of the report. Include the references. Also include at least one slide on lessons learned as a result of doing this project. Lessons learned include both on the topic of your report and as a result of participating in the class.

The presentation should be 5-10 minutes long. SE 6388 teams should prepare a 10-15 minute presentation. Not every team member has to be a presenter.

Submit your PowerPoint (or pdf) slides to eLearning.

Randomly selected teams will present in class on the due date.

- Bring your presentation to class on a flash drive or laptop.

Mandatory sections of the report

- Introduction (describes the topic, summarizes why it is important)
- Summary of each of the major references
- Discussion of estimating
- Discussion of planning
- Discussion of tracking progress
- Conclusions
- References

- Lessons learned

The title slide should include the title of your topic, your team name with each team member listed, the class, and the assignment number.

Grading Rubric

Intro, summary, conclusions, references sections are worth 10 points

Discussions of estimating, planning, tracking, and lessons learned are worth 15 points

References should be complete – at least six peer reviewed papers or books
