

**SE 4381, Software Project Planning and Management**  
**Team Assignment #3 – Agile Methods**

Answer the following five questions as a team.

1. Why do agile methodologists value “individuals and interactions” so highly?
2. Why should we value “processes and tools”?
3. How might an agile methodologist deal with a customer who does not want to talk to the developers on a regular and frequent basis?
4. What steps might an agile methodologist take to address the communication needs of a distributed (virtual) team?
5. Why are dedicated and experienced developers important to agile teams?

Grading Rubric

Each question is worth 20 points.

Note that these are questions that cannot be easily answered by copy-and-paste of text from the slides or the text.

Formatting requirements (name, class, assignment) inside the file & filename, -5 points for each missing.
