Project Team Member Evaluation Form

HW4----- SE-4367.0U1-Testing------ Summer 2018------

Group1----

I'm only evaluating my group, because I have no reference point for the other groups.

Most team members perform well in a project team. However some members perform extremely well and some very poorly. It is constructive to encourage the outstanding members and inform those who need improvements. This form allows you to convey such information to your team members whenever you deem there is such a need.

Please give an integer rating of -2 (poor), -1 (below average), 0 (average), +1 (above average), or +2 (excellent) for some of the aspects of the members you want to convey your assessment. Your evaluation might be reproduced to hide your identity and presented to the relevant member(s).

However, the identity of the evaluator will be kept **absolutely** confidential in all cases.

This homework went a lot better than the last two. Mainly because Ali did not have to work on any code that had to build successfully. We split our efforts more evenly and his decisions did not affect the coded tests that needed to work.

He still rarely participates in the discussion board.
